

MARION COUNTY SOLAR PROJECT

May 2025
Issue 3

Hello neighbor!

We hope you've been staying dry from all these May showers! As we move further into spring, we're excited to share some project and community updates from Marion County Solar Project.

The crews are finishing up with pile driving around the site, and module delivery is just around the corner! The street sweeper is continuing to keep area roads safe and clear of debris. To better align with Ridgedale Elementary and Community School dismissal and pick-up time, please note that we are pausing street sweeper activity daily from 3:10-4:00 p.m. Next time you drive by, keep an eye out for our new signage and flags that now decorate the site!

The Marion County project site is now proudly decorated with both the American and Ohio state flags!

We're proud to support organizations throughout the community who help make Marion County an amazing place. Over the holiday season, we were excited to support Downtown Marion, Inc., Heart of Ohio Homeless Shelter, and the Junior Service Guild of Marion County in their holiday giving initiatives. Marion County Solar Project is also happy to be a community partner and supporter of Marion CAN DO!

Marion County Solar Project was proud to support these local organization in their 2024 holiday giving initiatives.

Check out our new project site signage!

We are committed to being a good neighbor, so please don't hesitate to contact us directly if you have any questions or comments at connect@MarionCountySolarProject.com or (888) 652-4105.

Please feel free to visit MarionCountySolarProject.com or follow us on Facebook at Marion County Solar Project for facts about the project.

Sincerely,

Jillian Still
