

MARION COUNTY SOLAR PROJECT

October 2025
Issue 5

Hello neighbor!

As the leaves change and fall settles in, we're excited to share the latest updates from Marion County Solar Project.

We're in the home stretch! With panel installation complete and final construction underway, we're on track to begin operations in early 2026 and are ready to deliver clean, reliable energy to Marion County for years to come.

We donated 48 pails of F500EA Encapsulating Material to the Marion Township Fire Department in August, helping provide vital resources to the firefighters who serve our community. This encapsulation material helps extinguish fires and significantly reduces the risk of re-ignition.

Thank you to the Marion Township Fire Department for your dedication and service to the Marion community. We appreciate all you do!

Stay tuned for future updates on project milestones and upcoming community initiatives. We're committed to being a good neighbor and welcome your feedback anytime at connect@MarionCountySolarProject.com or (888) 652-4105.

Please feel free to visit MarionCountySolarProject.com or follow us on Facebook at Marion County Solar Project for facts about the project.

Sincerely,

Samantha Sawmiller
